

I have a passion for antiques, those unique pieces from far away countries and older times. One of the special people who have helped me, indeed supported me and enlightened me in understanding the value and joy of antiques is Julia Shantz of Uniquities.

I have known Julia for over 15 years. Our relationship started with my genuine respect for her integrity and ethics in her business and with her clients. As my desire to have antiques around me moved from my home to my business, Julia's knowledge and creativity came with me, realizing one of the biggest projects of my life - the building of my new spa - Esthetica Salon & Spa in Willow Park.

There I discovered how knowledgeable and supportive Julia truly was to me. She was able to help me with my design concept, which included old world charm and in her way make Esthetica come alive with historical pieces from around the world. Our oversized gothic doors with all the detail including hardware and history to distinct accent pieces, Julia integrated all these concepts into a stunning display of unbelievable antiquities that our clients and guests appreciate and applaud almost as much as me.

I couldn't be happier and I think of how this journey evolved in her magnificent showroom whose spaciousness allows you to see all of these in a setting where your imagination can become a dream come true.

Thank you Julia, and your great team at Uniquities!
